Jim and Amanda – Happy New Year!

Some developments in your favorite TMDL litigation. Telford is requesting another round of reconsideration based on some new data. As I think I have told you previously our settlement efforts are pretty much dead, with PADEP's lack of support.

So, before I schedule a call with Telford counsel, let's have a short discussion later this week. For the call I would like some company. For our internal call I am flexible pretty much all day Thursday – are there any times that work for you?

Chris

Chris:

It has been a couple months since I last checked-in regarding the Region's contemplated counter proposal to settle/administratively stay the nutrient TMDL for Indian Creek. Also, as you are likely aware, the attached documents (new site-specific Indian Creek data and info regarding the feasibility of periphyton control via nutrients) were transmitted to EPA Region 3 from our office just before Christmas. Please let me know if you have any questions regarding this information.

John and I would like to talk to have a short (~20 minutes) discussion with you regarding these items (e.g., settlement, recent data, restoration alternatives). Do you have any time later this week or early next week?

Regards,

Phil
